

The Second Circular for The 13th International Symposium on Polar Sciences

- May 9-11, 2006
- Songdo Techno Park, Incheon, Korea

Dear Colleagues,

Korea Polar Research Institute (KOPRI), KORDI invites you to the 13th International Symposium on Polar Sciences. The theme of this year is 'From Molecules to Ecosystem in Polar Science: Toward IPY 2007~2008'.

The symposium will focus on genetic approaches, physiology, ecology and biodiversity of polar organisms. One of the main goals of this symposium is to develop a new international collaborative exploration and to share a vision for the IPY 2007-2008. It will be good opportunity to bring together scientists working on polar biology & to exchange their ideas and results.

Information regarding registration & accommodation are posted on the following symposium website:

http://www.kopri.re.kr/english_web/sympo3/index.html

< Session >

- **Toward IPY 2007 ~ 8**
- **Genome & Proteins from Polar Region**
- **Genes & Physiology of Polar Organism**
- **Ecosystems & Environment**
- **Biodiversity & Systematics**

There is **no registration fee** & registration is possible before **March 31, 2006**.

We are looking forward to meeting you in the symposium.

February 10, 2006

Convener:

Dr. Yeadong Kim,
Director-General,
Korea Polar Research Institute

Coordinator:

Dr. Yoo Kyung Lee
Dr. Hyun Park
