

Monitoring climate change impacts:

Establishing a Southern Ocean Sentinel program

WORKSHOP

20-24 April 2009

CCAMLR HEADQUARTERS
HOBART - TASMANIA

A timely interdisciplinary workshop to address important issues in measuring, assessing and providing early-warning detection of climate change impacts on marine ecosystems and biodiversity, by measuring change in the Southern Ocean. A key focus will be to promote national and international collaboration.

Scientists, policy and decision-makers and representatives of NGOs are invited to participate.
