The International Council for Science: An Introduction

John Buckeridge PhD, FGS
John.buckeridge@rmit.edu.au
ICSU Executive Board
Membership

The Council has a unique global membership, consisting of national scientific academies or research councils and international disciplinary scientific unions.

31 Union members
122 National members
22 Associate members

from a total of 142 countries.
ICSU Regional Offices

The Council has regional offices in:

**Pretoria, South Africa** (hosted by the Academy of Science of South Africa)

**Kuala Lumpur, Malaysia** (hosted by the Malaysian Academy of Science)

**San Salvador, El Salvador** (hosted by the Ministry of Education, Government of El Salvador)
Mission

Strengthen international science for the benefit of all societies

Rôles

• Convening multi-stakeholder, integrated science on global challenges

• Shaping international policy: Connecting science to policy & practice. Advising on policy for science, technology & innovation

• Safeguarding the universality of science
ICSU’s Global Environmental Change research programmes

Group on Earth Observations
Biodiversity Observation Network

DIVERSITAS
an international programme of biodiversity science

bioGENESIS
a core project of DIVERSITAS

THE INTERNATIONAL COUNCIL FOR SCIENCE
Scientific Committee on Antarctic Research

futureearth
research for global sustainability
ICSU’s Current Funding Régime:

International Research Collaboration

Science for Policy

Universality of Science
Collaboration:

(2+ Unions)

Outreach

Education
Education:

Early Career Scientists

Women

Scientists from Developing Countries
Sustainability Goals:

Disasters

Climate Change

Sustainable Development

GRANTS PROGRAMME 2017
APPLICATION FORM
(Valid for ICSU Union Members only)
(Applicants using templates may submit to: grants@icsu.org)

Deadline for submission is 1 October 2016

Lead applicants* may submit no more than one application.
Project title:
Requested amount (£):

Lead Applicant 1 (Organization and contact details):
Lead Applicant 2 (Organization and contact details):
Lead Applicant 3 (Organization and contact details):

Supporting Applicant (Organization and contact details):
Supporting Applicant (Organization and contact details):
Supporting Applicant (Organization and contact details):
Supporting Applicant (Organization and contact details):

How will this project help advance thematic focus (science education, outreach and public engagement) and support ICSU’s strategic priorities as defined for the grants programme? (max. 10 lines):

www.icsu.org/what-we-do/projects-activities
ICSU’s Funding criteria:

- Relevance (to thematic focus)
- Innovation (originality etc.)
- Scientific Quality (clarity etc.)
- Cost Effectiveness (achievability, follow-on etc.)
- Participants (breadth etc.)
