Chemish Ridge

SCAR Gazetteer Ref. No 19287

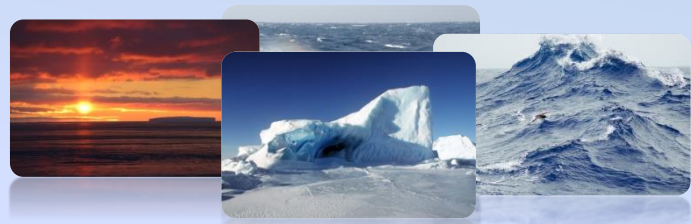

Feature type:

Origin

This name originates from **Bulgaria**. It is part of the Bulgaria Gazetteer and the SCAR Composite Gazetteer of Antarctica.

Narrative

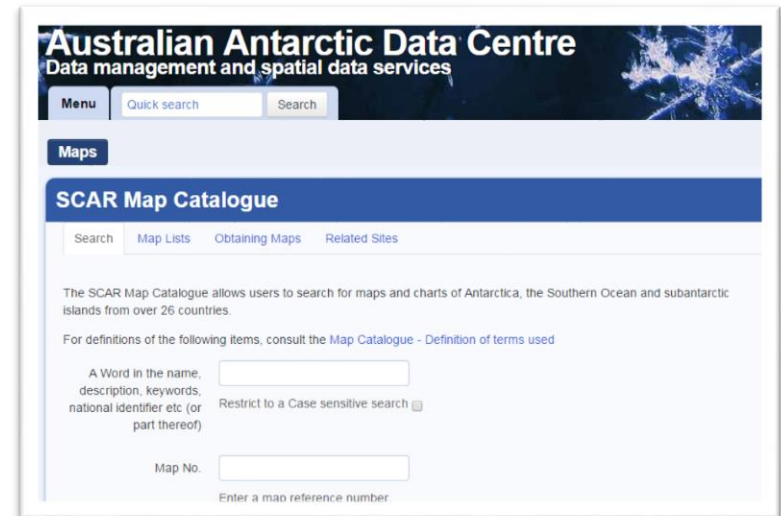

The rocky ridge extending 8.55 km in WNW-ESE direction, 2 km wide and rising to 600 m on Foyt Coast, Antarctic Peninsula. Situated 6.55 km SE of Meda Nunatak, 13.15 km SW of Bastion Peak and 9.52 km NE of Gluhar Hill. Surmounting Atlee Glacier to the N and Bevin Glacier to the S, with its E extremity forming Fitzmaurice Point. British mapping in 1974. Named after the settlement of Chemish in Northwestern Bulgaria.

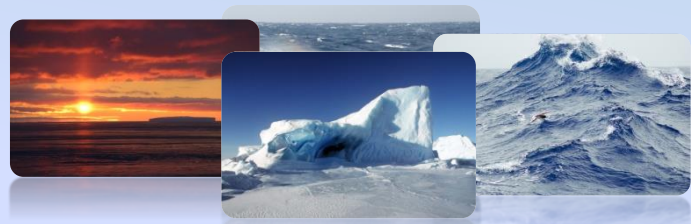

SCAR Map Catalogue

- Australia continues to host the catalogue.
- The catalogue usually only holds downloads for Australian maps. Australia has agreed to include Air Operation maps. Details and digital map files required.

Email mapping@aad.gov.au

SCAR Map Catalogue

- Add an automated procedure to email the group when new maps are added - tabled at the NZ meeting 2014. This has not been completed yet.
- New spatial search option – see screen shot
- 83 maps loaded for BAS.
- 50 newly published maps loaded by Australia

Email details for new maps to mapping@aad.gov.au
